

**06/11/2015**

**BLM3520**  
**Introduction to Mobile Programming**  
**Assignment - 2, Version 1**  
**(Due 25/11/2015)**

**ASSIGNMENT EVALUATION: 25.11.2015 - 17:00-19:00**

**!!!!DO NOT SUBMIT YOUR ASSIGNMENT VIA AN E-MAIL**  
**!!!!PLEASE READ THE ASSIGNMENT RULES FILE**

You should develop an Android Quiz application. The quiz would include at least ten closed-ended questions. Each user should register himself/herself(name,surname,birthdate).After completing the quiz, you will display the score of the user (for example : 6/10)

The application should also display the correct answers of the questions and should list the competitors (name, surname, age and score).

You should design a menu to accomplish the aforementioned tasks.

**ATTENTION**

Do not forget to read the document "ASSIGNMENT RULES", located in my website.
