## Introduction to Mobile Programming Specifications for Assignments

### Submission

- Assignments submitted lately will not be accepted. **"NO EXCEPTION"**
- Collaboration on any assignment is strictly prohibited. Submitted assignments are automatically checked for similarities. Infractions will be given a zero for the entire assignment.
- Assignments must be delivered in the specified lab hours. Every student must upload his/her assignment to the USB which will be given by the lab assistant.

### Content

1. An archive (zip, rar) file which contains PROJECT files (.xml,.java, etc.).
2. The APK file.
3. ONE report file (PDF)
4. The report file should include
  - **1. Question** - A brief description for the mobile application
  - **2. Solution** - A detailed explanation for each solution (XML files, Activity, Intent, Classes, Methods, etc.)
  - **3. Application Screenshots** - Numerous (at least 5, if necessary more) screenshots to show that your program runs correctly (should be placed into pdf)

### About Source Code

The source file must include **comments** which explain the code.  
The code should be **well-designed**.

### About Comments

- Important algorithmic parts must be commented.
- You must write a heading comment describing you and the program

5. The name of the submitted files must contain student number.

#### **Example:**

pdf	filename:	12011001.pdf
zip/rar	filename:	12011001.zip
apk	filename:	12011001.apk
// NO separate jpg, png, etc. files		

### ATTENTION

- Assignments that don't comply with submission rules will **NOT** be evaluated. **"NO EXCEPTION"**.
