Introduction to Computer Science - I
Assignment - 3
(Due 16/12/2015)

Q1

Design a graphic generator for the given array consisting of values of temperature.

Program Details

1. The user would give the number of days
2. The user would give the temperature values
3. The program would generate the graphic using the characters ('/','-','\')

Example

Input: 10
     22,15,15,13,15,17,17,17,21,22

Output:

```
        /
\_   _ _/
  \/
```

Input: 10
     15,16,17,17,17,17,17,18,19,20
Output

```
          /
        /
   _ _ _ _/
  /
 /
```
